

Butt Fusion Jointing

Who Should Attend

Mains and Service layers requiring butt fusion jointing skills

Prerequisites

None

Aims

To provide the knowledge and skills required to join polyethylene pipe safely using butt fusion techniques

Objectives

On completion of the course, delegates should be able to;

- State the essential elements required to successfully joint using butt and electro fusion methods.
- Demonstrate the ability to join PE pipes together in line with industry standards.
- Correctly set up butt fusion equipment ready for operation
- Correctly introduce PE pipe into machines to eliminate joint fault.
- Apply a level of quality assurance to completed joints, to ensure suitability to carry water or gas.
- Carry out the butt fusion process in accordance with Health and Safety requirements.

Duration

1 Day
