

# Fundamental Gas Safety

## Who Should Attend

Operatives that are new to gas networks or individuals wanting to work in the industry

## Prerequisites

None

## Aims

To provide training and assessment for the basic areas of Health, Safety and Environment for all operatives working on gas distribution networks in the UK. This course has been designed to assure the basic standard of individuals working on site and to give them sufficient knowledge and awareness to ensure the safety of themselves and others.

On successful completion of the course, delegates can apply for a EUSR 'NCO Gas Trainee' card.

## Course Contents

- Safety, health & environmental awareness
- Accident reporting and First Aid
- Fire control
- Manual handling
- Breathing apparatus
- Voltstick
- Gascoseeker

## Duration

3 Days
