

Plant Training

NPORS: Training, testing and on-site assessments

Established in 1992, the National Plant Operators Registration Scheme is one of the UK's leading accreditation and registration bodies, working across the construction, industrial, utilities, warehousing and distribution, agricultural, ports and marine sectors.

Since 2014 NPORS has been recognised by the UK Contractors Group (UKCG) and is an excellent alternative card scheme to the CPCS.

UCT can provide novice training & on-site, experienced worker assessments, for a wide range of plant, including;

Excavator

Lorry Loader

Forward Tipping Dumper

Ride on Roller

Fork-lift Truck

Telehandler

CPCS: Training & testing

CPCS is recognised by the UK Contractors Group (UKCG) and Major Home Builders Group (MHBG), amongst others, as the preferred card to comply with codes of practice for competence and certification.

The Scheme is made up of a number of core elements, which are used to demonstrate the skills, competence and qualifications that determine eligibility for Scheme

The cards available within the CPCS Scheme are;

- Trained Operator (Red) Card
- Competent Operator (Blue) Card

To obtain a CPCS Red Card delegates must;

1. Pass the CITB Health, safety and environment test
2. Pass the CPCS Theory Test (within two years of the CITB Health, safety and environment test)
3. Pass the CPCS Practical Test (within six months of the CPCS Theory Test).

The CPCS Red Card is valid for 2 years

To upgrade a Red Card to a Blue Card, delegates must achieve a Level 2 Plant Operations SVQ or NVQ, with the appropriate units relevant to the category, within 2 years of obtaining the CPCS Red Card

Level 2 NVQ Diplomas & Certificates in Plant Operations

These qualifications are for experienced plant operatives that need to upgrade their CPCS red card to a CPCS blue card, or simply want to be recognised in their area of expertise.

Cskills Awards has as suite of competence qualifications, previously known as NVQs.

Candidates will be required to demonstrate, in a real workplace environment, that they are competent against a set of performance statements.

They are assessed by an occupationally competent and qualified assessor whose job is to work with them and help them gather the evidence required.

UCT can deliver the above qualification in the following areas;

Cranes & Specialist Lifting Plant

Fork-lift Trucks

Extracting Plant

Transporting Loads Plant

Accessing Plant

Controlled Lifting Operations
(Slinger/Signaller)

Excavating Plant

Cranes & Specialist Lifting Plant

Compacting Plant

IPAF: Scissor lift & boom

The IPAF training programme for platform operators was developed by leading industry professionals. It is certified by TUV as conforming to the international standard ISO 18878:2004 'Mobile elevating work platforms - Operator (driver) training'. More than 100,000 operators are trained each year through a worldwide network of over 600 training centres. Successful trainees receive a PAL Card (Powered Access Licence), a safety guide, a log book and a certificate.

MEWP Courses Available;

- Static Vertical (1a, 1a+)
- Static Boom (1b, 1b+)
- Mobile Vertical (3a, 3a+)
- Mobile Boom (3b, 3b+)

PASMA: Mobile access tower

The Prefabricated Access Suppliers' and Manufacturers' Association (PASMA), is the recognised focus and authority for mobile access towers. As such it advances safety, standards and best practice across a wide range of sectors

A PASMA training photo-card and certificate of competence provides evidence that the user has passed written and practical examinations in the safe use of mobile access towers. PASMA training is recognised as one of the premier qualifications in the construction industry.

The course covers, Legislation, Regulations and Guidance affecting working at height with mobile access towers, PASMA Code of Practice; Product Standards EN 1004:2004, assembling, altering and dismantling towers incorporating current best practice for fall protection, inspection of completed mobile access towers and completion of Tower Inspection Records; hazards affecting the use of mobile access towers and how to avoid

Course Duration 1 Day
