

# Water Hygiene

## Who Should Attend

Any personnel working on any part of the drinking water distribution system must be Hygiene qualified

## Prerequisites

None

## Aims

To provide an understanding of the need for good hygiene when working with potable water. Successful completion of training and assessment allows candidates to be placed on the Energy & Utility Skills Register (EUSR)

## Structure

There are 3 elements to the training;

- A health screening questionnaire
- Participation on the training course
- Successful completion of the National Water Hygiene test

## Objectives

On completion of the course, delegates should be able to:

- To ensure that all individuals are aware of the ways in which potable water could be contaminated
- To ensure that individuals who work with potable water understand it is their responsibility not to allow the water to become polluted
- To ensure that individuals reach a nationally agreed level of training, testing and medical clearance.

## Duration

½ Day

## Contact

Manchester: 0161 776 4186

Hamilton: 01698 420854
